- Images - Syrinx

Nostress Netlabel celebrates first anniversary with a compilation of previous unreleased tracks by artists from the netlabel and not only. It's hard to believe it's already passed first year and our commitment has enabled us to meet many important talents of the world's independent music scene. This unexpected success encourages us to strengthen our commitment to the only real purpose: the promotion of free music. It 's very great to see that this planet is full of musical talent of all kinds and also great to know and promote artists on a global level. We are happy to receive much music and live recordings...it means faith in us. A big thank to all the artists who collaborated in this first initiative that we hope can be repeated every year and another special thank to Cristopher Uren for his precious support for the longevity of this netlabel.
