Fourth anniversary compilation has arrived and it represents a point of arrival but also a clear awareness of how important it is to consider it as a new beginning, a new start to develop something new, different. It is not always easy, but the many difficulties encountered encourage us to new ideas and new plans and this is only possible because there is you with your passion and interest for the artists that we release and promote, it is you who support us, so for this important aid has been possible to organize performance of national and international artists; it was possible to realize an idea of a documentary, a videoclip at work in progress now and more. This fourth compilation includes 16 tracks by artists already in the catalogs of Nostress and also some new and important from this south Italy location. As usual thanks to C. Uren, C. Blake, M. Sala and everyone else for believing in Nostress and for helping to ensure new and more extensive views.

Giunti alla quarta compilation anniversario comprendiamo come questo rappresenti un punto di arrivo ma anche una precisa consapevolezza di quanto sia importante considerarlo come un nuovo avvio, una nuova partenza per sviluppare sempre qualcosa di nuovo, diverso. Non è sempre facile, ma le mille difficoltà che si incontrano ci spronano verso nuove idee e nuovi piani e questo sarà possibile solo perchè ci siete voi con la vostra passione ed interesse per gli artisti che pubblichiamo e promuoviamo, ci siete voi che ci sostenete in tutto e grazie a questo importantissimo aiuto è stato possibile organizzare performance di artisti nazionali ed internazionali; è stato possibile effettuare riprese video per concretizzare l'idea di un documentario, di un primo videoclip in fase di preparazione ed altro. Questa quarta compilation include 16 tracce di artisti già presenti nei cataloghi di Nostress e vanta anche alcune nuove e importanti presenze del territorio. Come da consuetudine ringraziamo C. Uren, C. Blake, M. Sala e tutti gli altri per aver creduto in Nostress e per aver contribuito a garantire panorami sempre più vasti.
