Newest digital EP by Ilir Lluka from Tirana (Albania) after a supreme CD, a track for the Anniversary compilation 2015 and a live performance in Palermo released for the bootleg live series called "NN Performing". "Aria" is a new surreal metaphysical journey with usual Ilir Lluka psychedelic style constituted by granular synthesis techniques drones. It's also interesting to appreciate the particular album artwork made with foto of the artist Eni Derhemi. A musical journey of about twenty minutes explained with few intense words by the artist:

*"A gentle stream of unconsciousness flows through footsteps of blurry memories and perception lines, as the fading afternoon light projects its distant mind, so close and yet so far, into the world you bear in sight".*
