CONTROL-Z is a sound project by Pandu Hidayat, from Yogyakarta, Indonesia. Establish in 2008.

"Trauma Akustik" is an interpretation of the noise pollution in our abstract space. Based on many issues of Human and nature, people and city, noise and silence, art and fun. A wild concept with beautiful ways. The execution of this work using the techniques free associating writing, creating sound collages with irregular texture.

Experience using electronic musical insight and perfect knowledge of the world of sampling and excellent results. CONTROL-Z has given us a precise, hard, enchanting, and, in short, magnificent work. "Trauma Akustik" talks, screams and denounces a capitalist society, compulsive ever more distant from the real needs of human beings. Metropolis bigger and little space for the depth of feelings. A disk that must be listened from beginning to end without pausing to hear and understand the experimentalism of the Indonesian artist. Nostress Netlabel is proud to have this work on its catalogue.
