Empirical Evidence is one of the most successful musical projects by Aldo Ammirata, expert in many instruments which is one of highest artist performer in Palermo. For many years his musical projects consist of drone ambient atmospheres obtained with fields recordings and a massive use of unconventional musical analogic and digital instruments. His constant research for the magical doctrines led him to an approach as an expert follower of concrete sounds, sometimes hidden and distressing but always full of precise historical references. That's why Nostress Netlabel has chosen him for its Netlabel Opening at Palazzo Steri in July 2011. That performance is been released for "NN Performing" series.

"spiritĉeesto" is a new work composed of various ambient recordings and phenomena research carried out with a Nagra 4.2 and Geloso G 651, electronic tamera, buddha machine, black box, EMF meter, organ, a cello and esraj as interventions in automatic writing.

"An allusion or maybe an evocation of the end 800' period between magical, esoteric doctrines, mesmerism?"
