ANTON MOBIN

Sound artist and radio producer, the sound recording and the sound effects are the essential elements of his work of composition. Born in 1979, Anthony Baron lives in Paris and works where the improvisation and the sound creation is going full swing in the world. It is under the name of Anton Mobin that he produces his radio creations and that he occurs on stage. Anton Mobin's sound activities evolve in two universes: the improvised music and the radio art. He defines himself his initiative in the continuity of the concrete music: his approach is directed on the listening of the sounds of the everyday life and their use in the radio composition, to develop an "extensive" concrete music.
