– Modular Grid Experiment – Live in Palermo 2015

The south italian artist Doktor Tox (Emilio Totta) is a sound designer. One of the few artists of this city strongly connected with modular complex and varied sounds. "Sci-Fi inspiration" & Drone are genres and results derived from his experiments with electronic modular systems. Everything about the layering of sound and its projection in the panoramic sound created by modular synths and analogue equipment. The contact with Nostress was obvious and easiest, resulted in a performance in the historic center of Palermo in the Easy Reader Library into a place of high cultural value. Modular Grid Experiment is the logical title of that performance on a hot evening of last summer July 10th 2015.

Uno dei pochi artisti di Palermo Doktor Tox (Emilio Totta) appassionato e studioso del mondo complesso e variegato dei suoni modulari. "L'ispirazione Sci-Fi" & Drone sono generi e risultati derivati dai suoi esperimenti con sistemi modulari elettronici. Tutto quello che riguarda la stratificazione del suono e la sua proiezione nell'ambiente panoramico sonoro creato da synth modulari e apparecchiature analogiche. Entrato in contatto con Nostress Netlabel, era facile e ovvio che ne sarebbe nata una collaborazione concretizzata in una performance sperimentale nel centro storico della città di Palermo in una calda serata estiva del 10 Luglio 2015 alla Easy Reader Libreria in un luogo di alta valenza e fruizione culturale. Modular Grid Experiment ne è il titolo.
