December 11th

"Two different generations, both revolutionary: free impro, live electronics, noise, words, tapes, soundtrack, electro, sonic-post-sovietic-art. The best sonic and ideologic outcome after communism crisis". Few words to explain the power of the **ASTMA** duo with **Alexei Borisov** and **Olga Nosova**, two maximum exponents of the contemporary russian experimental impro based on great performance with a strongest energy around the world. For many years, throughout the world, their performances in underground environments are usually welcomes with great appreciation. Nostress has already released a couple of performance (for NN Performing digital series) in Paris and in Hong Kong and now is very pleased to produce a limited edition CD of a recent performance here in Palermo during the **MainOFF*** Festival organized by **Brusio Netlabel**** in December 2014 who invited Nostress to participate as media partner. **Global Strike** is the right title of this production and the video is already available on CD's page and on the Nostress Youtube channel.
