The project "Efficient Refineries" has been founded by Miguel A. Ruiz (Spain) and Siegmur Fricke in 1995. After two net-albums and a CD, the project has been reactivated in May 2011 during Miguel's visit at Pharmakustik-studio in Germany where the fourth epic album "Plank Tone" has been recorded during several night-sessions. This newest LP offers six new complex pieces entering the world of subaquatic atmospheres, seaweed and microscopic algae realised by new techniques in audio-recording and the excessive use of vintage-equipment from the early 70s period like Farfisa-organ, various analogue synthesizers, modulators and a nostalgic rhythm-box. The 11-minute opener "Aphotic Sunrise" reaches a new level in ambient atmospheres; a level of depth, warmth, sound-research, treatment and innovation...it defines a new unusual style of ambient spheres. The album combines elements of early-70s-Avant-garde, noises, very well structured rhythms and sequences plus bizarre voice-treatments and stands for Efficient Refineries's definition of innovative electronica 2011.
