French artist Zreen Toyz (born in 1954) often presents himself as Sound Sculptor or Sound Poet. After few years in classical training on piano and percussions, he does not appreciate the stifling conformity of the academy and turns to the improvised musics. The continuation of its training is essentially self-taught. Since his first pieces created in 1970, he works the sound material following inspiration of the moment, a raw and instinctive approach by stratification where any imperfection or sound incident become a harshness on which to hang on atmospheres or reflections. In this way, he creates impalpable and timeless landscapes where vibrations, noises, and collages erase the structure of the piece. "Grimoire Of Eternity" is the 12th album as Zreen Toyz and it seems to be the last one...it's reincarnated in the "Arcane Waves" project.
